INTRODUCTION

The Medicaid Management Reports are published by the Bureau of Program Operations' Division of Reports and Analysis. These reports are designed to present some current data on State Medicaid programs and to identify program trends through a series of tables and graphs. They are prepared quarterly from data submitted by the States to the Health Care Financing Administration on forms OA-41 and HCFA-120.

This report on the fourth quarter of Fiscal Year 1978 represents the final publication in the Medicaid Management Report series. Since no separate annual report for Fiscal Year 1978 will be published, we have included in the Appendix to this report some selected fiscal year summary and trend data on Medicaid expenditures and recipients.

The Medicaid Management Reports provide the Bureau of Program Operations with national and individual State trends that are used to help identify States and program areas in which monitoring activities should be centered. In addition, it is hoped that publication of the data in this form will result in an improvement in the quality of the data submitted by the States to the Health Care Financing Administration.

Types of data presented in the Medicaid Management Reports include:

- Amount of State Medicaid Expenditures
- Amount of the Federal Share of State Medicaid Expenditures
- Amount and Distribution of Medical Vendor Payments by Type of Service
- Average Monthly Number of Medicaid Recipients for whom Medical Vendor Payments were made
- Average Monthly Participation Rate in Medicaid by Public Assistance Recipients
- Average Monthly Payment per Medicaid Recipient by Basis of Eligibility
- Number of Children Screened and Referred under EPSDT

CMS Library
C2-07-13
7500 Security Blvd.
Baltimore, Maryland 21244

The data presented in these reports should be analyzed with caution for the following reasons:

There is much variance among the States in the types of medical services covered under Medicaid and in the designation of groups eligible for Medicaid.

Data which are generated through the State claim payment systems are affected by the time lag between the provision of medical services and the payment for those services.

Only the data reported on form OA-41 have been verified by the Health Care Financing Administration.

Incomplete reporting by the States may distort the national totals and averages.

QUARTERLY HIGHLIGHTS

July-September 1978

For the quarter ending September 30, 1978, total Federal and State Medicaid expenditures in the United States increased by 16.1% to \$5.1 billion as compared to the corresponding quarter ending September 30, 1977. Over the same period, the average monthly number of Medicaid recipients in the United States decreased by 2.7% to 8.3 million individuals. Medical Assistance Payments rose by 16.4% to \$4.9 billion, while expenditures for State and local administration and training rose by 10.7% to \$247 million between these two periods. The adjusted Federal share of total Medicaid expenditures for the quarter ending September 30, 1978, was \$2.9 billion, an increase of 16.0% from the corresponding quarter in 1977.

Institutional services accounted for the largest proportion of Medical Vendor Payments made during the fourth quarter of Fiscal Year 1978. Inpatient hospital services accounted for 29.5% of all payments made, while ICF and SNF services accounted for 25.3% and 17.9% of all payments made, respectively. ICF services for the mentally retarded experienced the largest percent increase in payments between the quarters ending September 30, 1977, and September 30, 1978. Payments for these services increased by 37.3% to \$395 million.

AFDC related children comprised the single largest group of Medicaid recipients in the United States during the quarter ending September 30, 1978, representing approximately one-third of all Medicaid recipients reported.

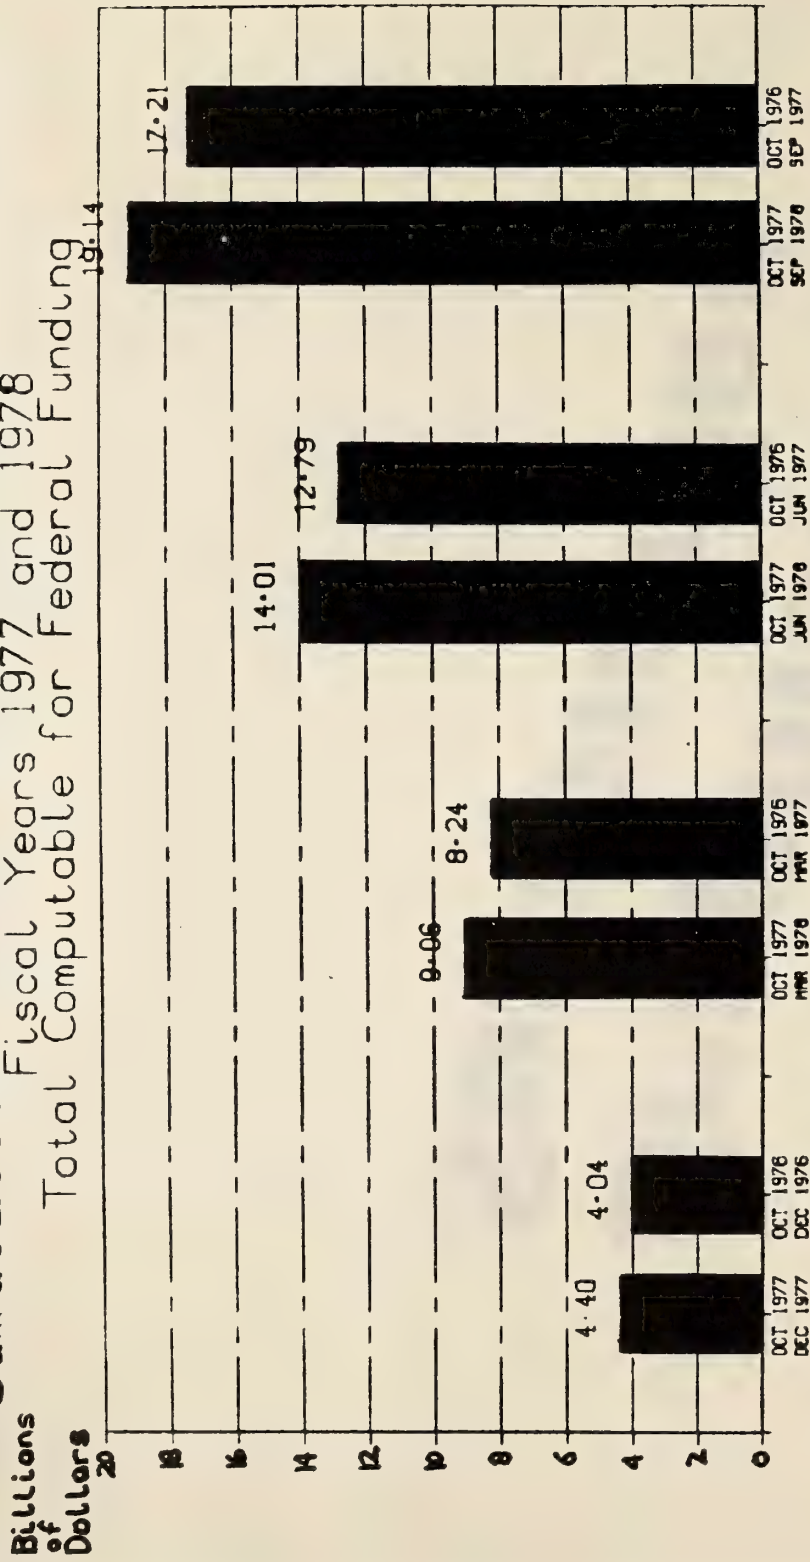

During the fourth quarter of Fiscal Year 1978, 35.8% of all public assistance recipients had Medicaid services paid for on their behalf. Aged individuals who were also SSI beneficiaries had the highest rate of Medicaid participation, 60.6%, of all eligible groups receiving public assistance.

The average monthly payment for all Medicaid recipients in the United States for the quarter ending September 30, 1978, was \$185.70, an increase of 17.2% from the fourth quarter of Fiscal Year 1977. Aged and disabled recipients, with average monthly payments of \$304.21 and \$308.45, respectively, were the eligible groups with the highest average monthly payments.

During the quarter ending September 30, 1978, a total of 512,207 children were screened under the EPSDT program, representing a 3.8% increase in the number of children screened from the corresponding quarter in Fiscal Year 1977. Nearly 46% of all children screened were found to have referable medical conditions. Of those children found to have referable conditions, 88.5% were subsequently referred for diagnosis and treatment.

* Percent change from same period previous Fiscal Year

+ Percent change greater than 1000

** Will be different from the Federal Medical Assistance Percentage because of different matching rates for administrative activities and family planning. Also, the adjusted Federal share in some instances includes amounts representing major adjustments from prior periods which are not reflected in the total computable expenditures used as the denominator in computing the percentage.

Source: NCSS120 for Medicaid recipient counts, "Supplemental Security Income Monthly Statistics" (SSA/ORS) for SSI recipient counts, "Public Assistance Statistics" (SSA/ORS) for AFDC recipient counts.

Table 10

Participation rate derived by computing the number of Medicaid recipients receiving cash assistance as a percentage of SSI or AFDC recipients as appropriate. Participation rate for the Aged, Blind, and Disabled may exceed 100% because SSI recipient counts include only recipients of Federally administered payments, while Medicaid recipient counts for some States include individuals receiving only a State administered State supplement.

Guam did not report.

Table 11

Average monthly payment computed by dividing the sum of the three monthly recipient counts into the sum of the three monthly payment amounts.

Other Title XIX column includes both individuals under age 21 covered by Title XIX and individuals aged 21-64 covered by a State assistance program other than Title XIX.

Guam did not report.

GLOSSARY

I. FINANCIAL DEFINITIONS

COMPUTABLE FOR FEDERAL FUNDING - Expenditures made by a State Medicaid agency associated with the operation of the Title XIX program which are matchable by Federal funds.

MEDICAL ASSISTANCE PAYMENTS - Those payments made for medical care by the State directly or by a fiscal agent on behalf of the State. Such payments may be in the form of vendor payments made directly to providers of medical care or in the form of per capita premium payments made to HMOs, other prepaid health insurance plans, or Medicare Part B.

TOTAL EXPENDITURES - Includes expenditures for Medical Assistance Payments, as well as for administration and training activities associated with the operation of the Title XIX program.

CUMULATIVE EXPENDITURES - All expenditures made Federal fiscal year to date.

STATE AND LOCAL ADMINISTRATION AND TRAINING -

The administrative and training costs associated with the operation of the Title XIX program which may include the functional costs of eligibility determination, policy formulation, direction, claims processing, and payment process and training; includes salaries and employee benefits, supplies, equipment, postage, travel, fiscal agent costs, etc., associated with these functions.

ADJUSTED FEDERAL SHARE - The Federal share of

Medical Assistance Payments and State and Local Administration and Training expenditures associated with the operation of the Title XIX program. The adjusted Federal share reflects financial adjustments (both increasing and decreasing) that are made to the unadjusted Federal share computed by applying the various matching rates for Medicaid expenditures to the total expenditures computable for Federal funding.

II. ELIGIBILITY CRITERIA

The Medicaid (Title XIX) program is designed to provide medical assistance to those groups or categories of individuals who are eligible to receive cash payments under one of the existing welfare programs established under the Social Security Act; i.e., Aid to Families with Dependent Children (Title IV) or Supplemental Security Income for the Aged, Blind, and Disabled (Title XVI). Medicaid eligibility is available to individuals who fit into one of the categories covered by these cash welfare programs: aged, blind, or disabled individuals; or child and adult members of families with dependent children. Medicaid eligibles are classified as categorically needy or medically needy within these categories. The categorically needy are those individuals who are receiving cash assistance or would be receiving such assistance if they applied under one of the cash welfare programs. The medically needy are those individuals who would be eligible for welfare payments except that their income is too high. In addition, some States have exercised the option of including other needy individuals in their Medicaid programs who do not fall into one of the above categories. Such individuals are classified as "Other Title XIX" recipients.

III. DEFINITION OF SERVICES

INPATIENT HOSPITAL SERVICES - All items and services furnished by a licensed or formally approved hospital, which are provided under the direction of physicians or dentists for the care and treatment of hospital inpatients, and which are billed for by the hospital.

GENERAL HOSPITAL - A hospital maintained primarily for inpatient care of acute illness or injury and for obstetrics or tuberculosis.

MENTAL HOSPITAL - A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.

INTERMEDIATE CARE FACILITY SERVICES - All services provided, and billed for, by an institution furnishing health-related care and services to individuals who do not require the degree of care provided by hospitals or skilled nursing facilities as defined under Title XIX, but who because of their physical or mental condition require care and services above room and board. Intermediate Care Facility (ICF) services may also include ICF services for the mentally retarded receiving active treatment in certified institutions for the mentally retarded or persons with related conditions.

SKILLED NURSING FACILITY SERVICES - Skilled nursing or rehabilitative services provided under physicians' orders on an inpatient basis and billed for by a certified facility that meets standards for skilled care established under the Title XIX program.

PHYSICIAN SERVICES - All services provided, and billed for, by an individual licensed under State law to practice medicine or osteopathy. Exclude all such services provided as part of inpatient hospital, outpatient hospital, clinic, or laboratory services and billed for by the hospital, clinic, or laboratory.

DENTAL SERVICES - Any diagnostic, preventive, or corrective procedures administered by, or under the supervision of, a dentist. The term "dentist" means a person licensed to practice dentistry or dental surgery.

OTHER PRACTITIONER SERVICES - Services provided, and billed for, by licensed practitioners other than physicians and dentists. Services of professional nurses should be limited to private duty services in a hospital or nursing home. Payments for optometrists should include payments for eyeglasses where billed for by the optometrist.

III. DEFINITION OF SERVICES - Continued

OUTPATIENT HOSPITAL SERVICES - All preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services to outpatients by a hospital under the direction of physicians or dentists.

LABORATORY AND RADIOLOGICAL SERVICES - Professional and technical laboratory and radiological services provided in an office or similar facility (other than a hospital outpatient department or clinic) or by a qualified laboratory.

HOME HEALTH SERVICES - Includes the following items and services furnished to a patient in his home (excluding a hospital or nursing home) on recommendation of a physician: intermittent or part-time nursing services provided by a home health agency or by a registered professional nurse or licensed practical nurse when no home health agency is available; medical supplies, equipment, and supplies suitable for use in the home; and services of a home health aid.

FAMILY PLANNING SERVICES - Any medically approved means, including diagnosis, treatment, drugs, supplies, and devices or related counseling, which are furnished or prescribed by, or under the direction of, a physician for individuals of child-bearing age for purposes of enabling such individuals to determine freely the number and spacing of their children.

CLINIC SERVICES - All preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services furnished to outpatients by, or under the direction of, physicians or dentists in a facility which is not part of a hospital but is organized and operated to provide such services to outpatients. Services rendered by HMOs are to be reported by type of service. Services rendered by physicians in a general group practice are to be reported as physician services.

PRESCRIBED DRUGS - Any simple or compound substance or mixture of substances prescribed by a physician, dentist, or other licensed practitioner for the cure, mitigation, or prevention of disease or for health maintenance. For reporting purposes, prescribed drugs will be primarily those dispensed by licensed pharmacists. Drugs administered directly by a physician or other practitioner are to be reported as prescribed drugs if charges for them are separable from other charges of the practitioner.

OTHER CARE - Any type of medical care or services covered under Title XIX and not classifiable under one of the items defined above.

IV. MISCELLANEOUS DEFINITIONS

AVERAGE MONTHLY PAYMENT PER MEDICAID RECIPIENT - The average amount per month of all Medical Assistance Payments made on behalf of a Medicaid recipient by basis of eligibility.

PARTICIPATION RATE IN MEDICAID BY PUBLIC ASSISTANCE RECIPIENTS - The percentage of individuals receiving cash payments under the Aid to Families with Dependent Children program (AFDC) or the Supplemental Security Income program (SSI) for whom a medical claim is paid this quarter.

EPSDT - A program of early and periodic screening and diagnosis of individuals under the age of 21 who are eligible under the State plan. The program ascertains their physical or mental defects and provides health care, treatment, and other measures to correct or ameliorate defects and chronic conditions discovered through screening.

Appendix:

FISCAL YEAR SUMMARY AND NATIONAL TREND DATA

FISCAL YEAR 1978 HIGHLIGHTS

Total Medicaid expenditures in the United States for the Federal Fiscal Year 1978 (October 1977-September 1978) were \$19.1 billion, an increase of 11.2% from Fiscal Year 1977. Medical Assistance Payments rose by 11.1% to \$18.2 billion, while expenditures for State and local administration and training rose by 13.1% to \$969 million between these two periods.

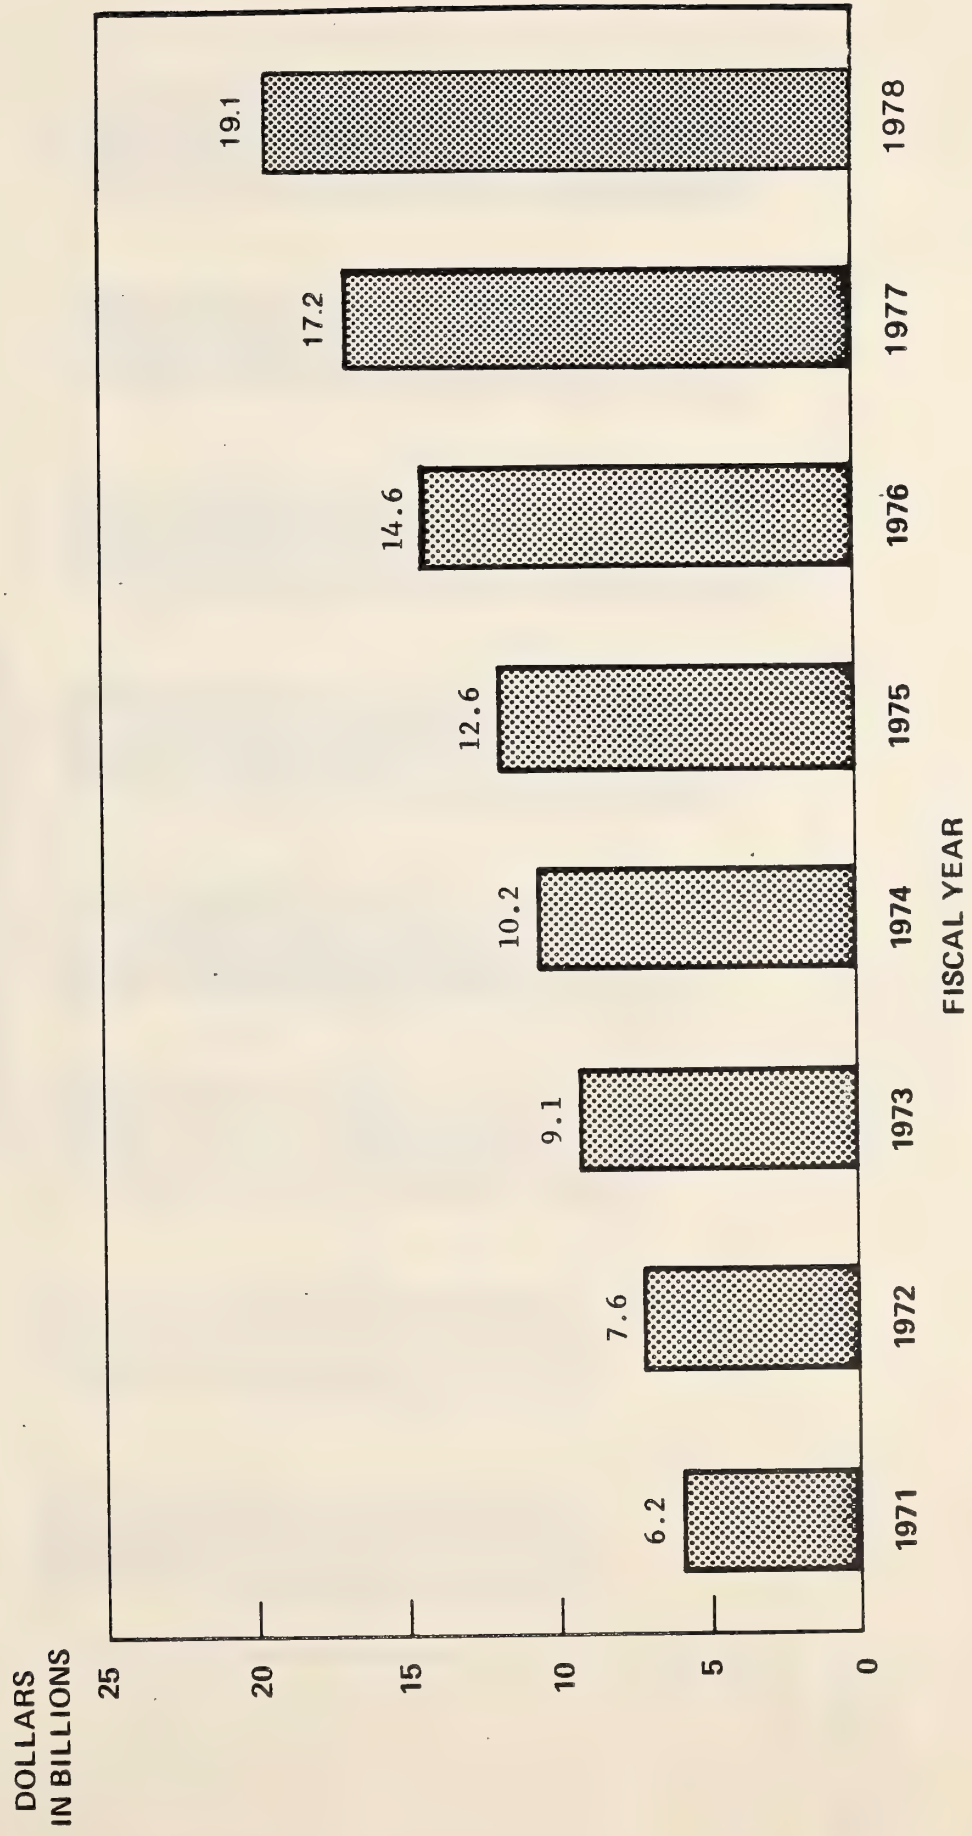

The adjusted Federal share of total Medicaid expenditures for Fiscal Year 1978 was \$10.8 billion, an increase of 10.6% from Fiscal Year 1977. The adjusted Federal share of Medical Assistance Payments rose by 10.5% to \$10.1 billion, while the adjusted Federal share of expenditures for State and local administration and training rose by 11.4% to \$608 million.

The largest State by size of total Medical Assistance Payments in Fiscal Year 1978 was New York which expended \$3.1 billion, 17.3% of all Medical Assistance Payments in the United States. The ten largest States, by size of Medical Assistance Payments, expended 65.3% of all Medical Assistance Payments in Fiscal Year 1978.

The unduplicated number of Medicaid recipients decreased by 4.5% in Fiscal Year 1978 to an estimated 21.8 million persons. Dependent children under age 21 comprised the largest single recipient group, making up 46.3% of all recipients. The largest proportion of Medical Assistance Payments, however, were made on behalf of aged recipients. Aged recipients accounted for \$7.0 billion, 38.6% of all payments.

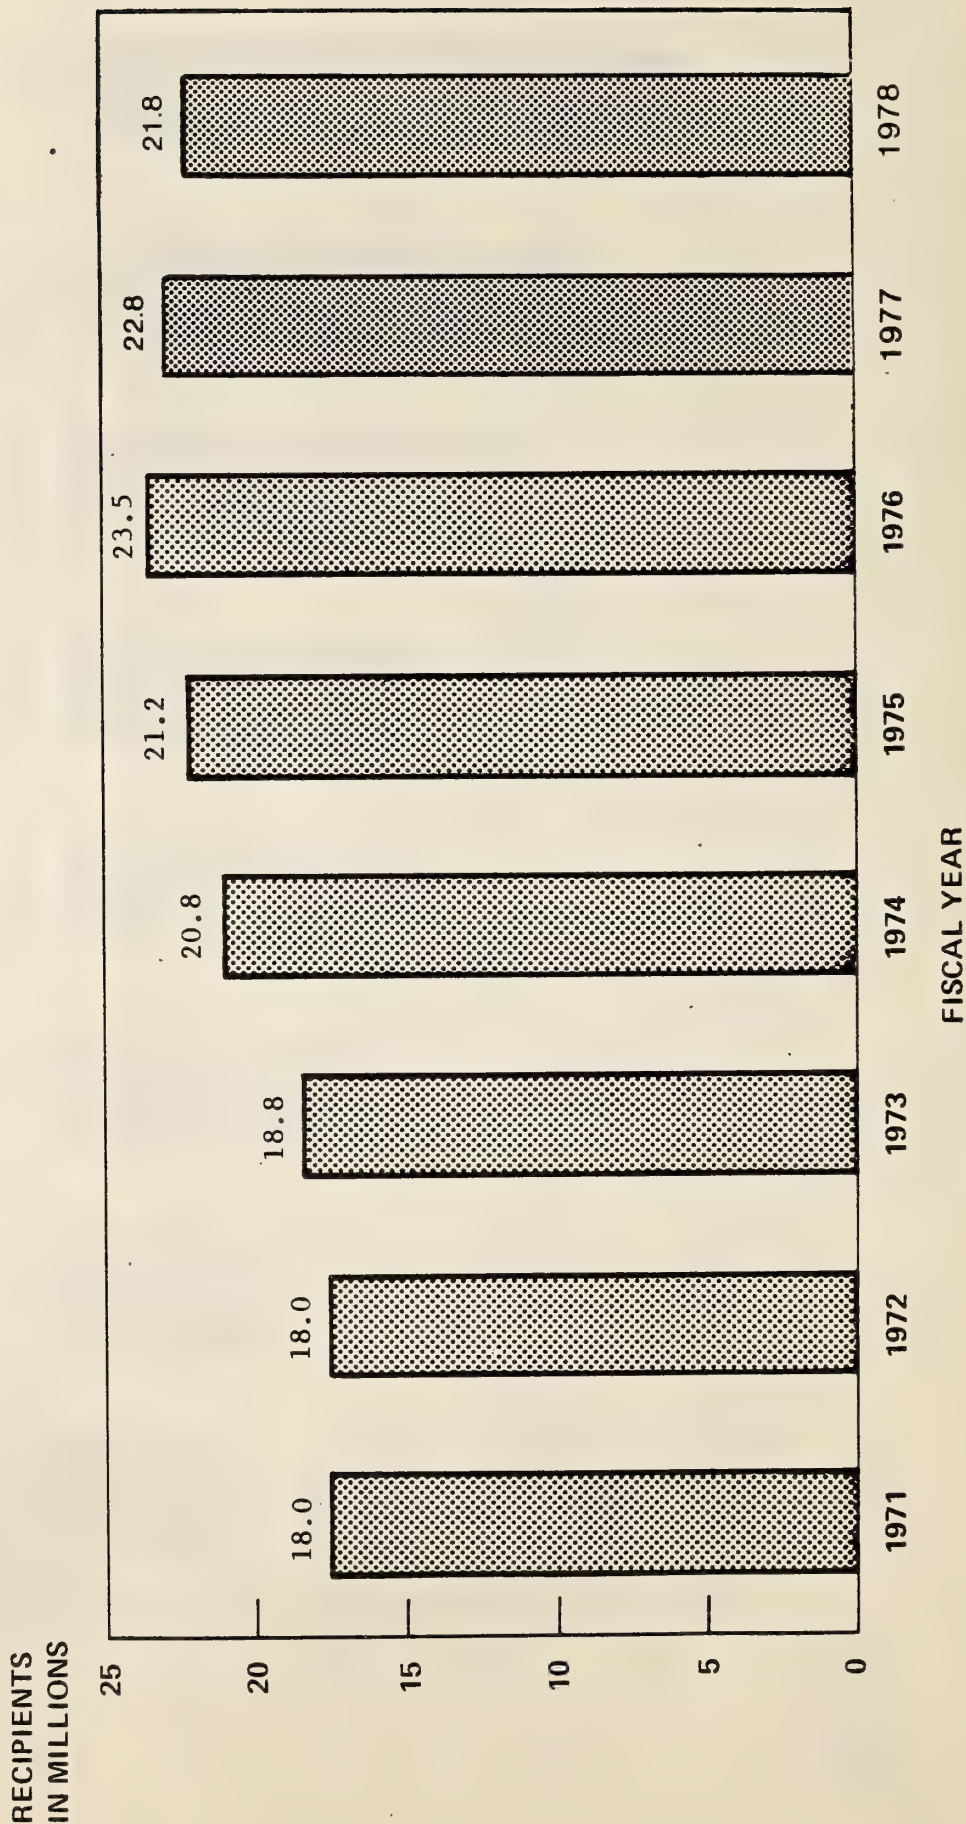

In Fiscal Year 1978, the average payment for all Medicaid recipients rose by 16.3% to \$834. Aged and disabled recipients had the highest average payments, averaging \$1,852 and \$1,798 per recipient respectively. Blind recipients had the largest percent increase, 60.8%, in average payment per recipient as compared to Fiscal Year 1977.

Virgin Islands	1,543		53	52

TECHNICAL NOTES

1. Chart I is based upon actual Medicaid expenditure data reported by the States on report form OA-41, Quarterly Statement of Expenditures. The figures shown include State and local expenditures for administration and training, as well as Medical Assistance Payments. These data are compiled annually in the report "State Expenditures for the Medical Assistance Program" by the HCFA Office of Management and Budget.
2. The unduplicated recipient counts presented in Chart II are adjusted to exclude those recipients reported as adults, aged 21-64, who are covered by a State assistance program other than Title XIX. The source documents, "Medicaid State Tables" and "Medicaid Statistics," are prepared annually by the HCFA Office of Research, Demonstrations, and Statistics. "Medicaid State Tables" is based on the annual statistical report, HCFA-2082, submitted by the States; while "Medicaid Statistics" is based on a compilation of the twelve monthly statistical reports, HCFA-120, submitted by the States. "Medicaid State Tables" is the source for all years except 1971, 1977, and 1978, which come from "Medicaid Statistics."
3. The unduplicated recipient counts presented in Chart III exclude those recipients reported as adults, aged 21-64, who are covered by a State assistance program other than Title XIX. In addition, children in AFDC families have been combined with other dependent children under age 21 to form the category "children under 21." This methodology was also applied to the recipient counts in Tables C, E, G, and H.
4. The official expenditures published in "State Expenditures for the Medical Assistance Program" are not broken out by basis of eligibility. The Medicaid payment data published in "Medicaid Statistics," however, are broken out by basis of eligibility. Chart IV and Table G were created by determining the percentage of Medicaid payments accounted for by each of the eligibility categories in "Medicaid Statistics," Fiscal Year 1978, and then applying each of the percentages to the total Medical Assistance Payment expenditures published in "State Expenditures for the Medical Assistance Program," Fiscal Year 1978. Chart IV and Table G, therefore, present an estimate of the break-out by basis of eligibility of the total Medical Assistance Payments for Fiscal Year 1978. Those recipients, and the accompanying payments, reported as adults, aged 21-64, covered by a State assistance program other than Title XIX were excluded from these computations.

TABLE J (CONTINUED)
RANK OF STATES BY PERCENT CHANGE IN MEDICAL ASSISTANCE PAYMENTS
FISCAL YEARS 1977-1978
(DOLLARS IN THOUSANDS)

State	Medical Assistance Payments FY 1978	Percent Change From FY 1977	Rank
Minnesota	\$ 431,046	13.6%	27

Colorado	145,155	-0.6	51
Virgin Islands	1,543	-0.6	51
Puerto Rico	57,653	-13.5	53

TECHNICAL NOTES

5. Chart V is based upon the break-out of Medicaid payments by type of service published in "Medicaid Statistics," Fiscal Year 1978. Payments reported for those adults, aged 21-64, covered by a State assistance program other than Title XIX were included in the computations.
6. The Federal Fiscal Year changed from July-June for FY 1976 to October-September for FY 1977. Expenditure data for the resulting transition quarter, July-September 1976, are presented in Table A. Data on the transition quarter are excluded from all other tables and charts in this report.
7. The average payment per recipient figures were obtained by dividing the number of recipients in each category into the estimate of total Medical Assistance Payments for each category as derived from the computations outlined in Technical Note 4.

MEDICAID SERVICES STATE BY STATE,

DECEMBER 1, 1977 ✓

* **BASIC REQUIRED MEDICAID SERVICES:** Every Medicaid program must cover at least these services for at least everyone receiving federally supported financial assistance: inpatient hospital care; outpatient hospital services; other laboratory and X-ray services; skilled nursing facility services and home health services for individuals 21 and older; early and periodic screening, diagnosis, and treatment for individuals under 21; family planning; and physician services. Federal financial participation is also available to States electing to expand their Medicaid programs by covering additional services and/or by including people eligible for medical but not for financial assistance. For the latter group States may offer the services required for financial assistance recipients or may substitute a combination of seven services.

Services provided only under the Medicare buy-in or the screening and treatment program for individuals under 21 are not shown on this chart.

Definitions and limitations on eligibility and services vary from State to State. Details are available from local welfare offices and State Medicaid agencies.

FMAP ^{4/}		SEE ABOVE	BASIC* REQUIRED MEDICAID SERVICES	● offered for people receiving federally supported financial assistance	+ offered also for people in public assistance ^{2/} and SSI ^{3/} categories who are financially eligible for medical but not for financial assistance	Additional services for which Federal financial participation is available to States under Medicaid

Intermediate Care Facilities (ICF): P.L. 92-223 transferred the ICF program to Medicaid (Title XIX) as an optional service, effective 1-1-72. States may at their option include institutions for the mentally retarded, both public and private. See footnote five.

1. Data from Regional Office reports of characteristics to State programs and State plan amendments.
 2. People qualifying as members of families with dependent children (usually families with at least one parent absent or incapacitated).
 3. People qualifying as aged, blind, or disabled under the Supplemental Security Income program.
 4. FMAP - Federal Medicaid Assistance Percentage: Rate of Federal financial participation in a State's medical vendor payment expenditures on behalf of individuals and families eligible under Title XIX of the Social Security Act. Percentages, effective from October 1, 1977, through September 30, 1979, are rounded.
 5. Including ICF services in institutions for the mentally retarded.
